DETAILED ACTION

Allowable Subject Matter

1. Claims 20-31 and 38 are allowed.

2. The following is an examiner's statement of reasons for allowance:

The current invention claims a switching means for inserting a transcoder when a mobile station moves from a first radio network to a second radio network, and for querying the second radio network whether compression coding information of a side of a mobile terminal can be changed so that the transcoder can be bypassed and removed.

The closest prior art is Siemens (Tdoc N4-000476, TrFO/TFO Workshop #2, July 18, 2000), and in section 2.2, Siemens discloses a similar system, but fails to teach the querying step.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
